Mote: See appendix A for an explanation of terms used.

Standard Notes: - Represents zero. (D) Withheld to avoid disclosing figures for individual

•"• For crushed and "broken stone, sand and gravel, and clay mining operations in manufacturing establishments, the number of production, development, and exploration workers was figures for man-hours. No data were obtained on other employees at such operations, hence, the same figures are included for production, development and exploration workers and for all employees at such operations. For value of shipments and receipts, includes the estimated value of minerals produced and used in the same establishment.

[2]For crushed and broken stone, send and gravel, and clay mining operations in manufacturing establishments, excludes the cost of purchased machinery installed.

[3]Not shown since the cost of supplies, purchases for resale, minerals received for preparation, purchased fuels and electric energy, contract

work, and purchased machinery
installed exceeds the sum of value of shipments and receipts and capital expenditures.
